Artificial Intelligence Application Development Practical
Module - II
Practical – I

Roll No.:T007	Name:subhashree jena
Class:TYIT	Batch:1
Date of Assignment: 29/08/26	Date/Time of Submission: 29/08/26

1. Jira Setup & Project Creation.

A. Create a Jira Cloud account and explore the dashboard.

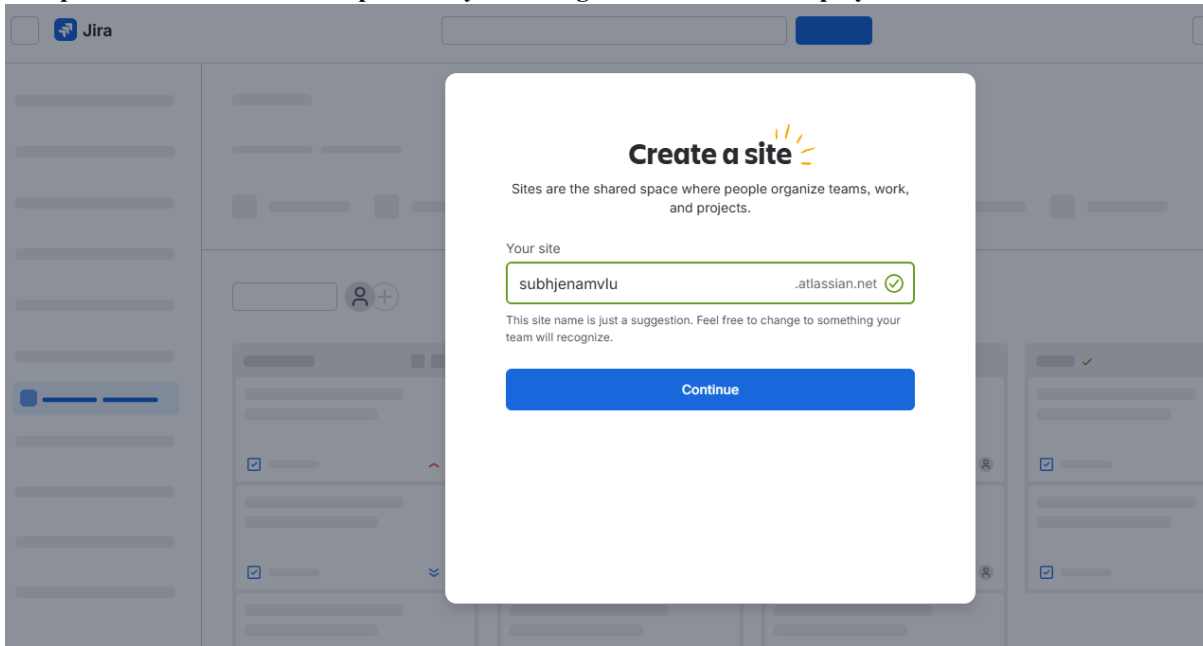

Open Google and search for Jira. Open the Jira website to begin the setup.

The screenshot shows a Google search for 'jira'. The search results page displays the 'Sponsored Result' for 'Atlassian Jira Official Site'. The result includes the URL 'https://www.atlassian.com/jira', a description of Jira as a project management tool, and several links for 'Start Your Free Trial', 'Sign Up to Watch Demo', and 'Enterprise Services'. On the right side, there is a 'Jira' software card with a brief description and a 'People also search for' section listing Confluence, Trello, Slack, and Asana.

Click on Google. Enter the required email/account details and click Continue to create or access your Jira account.

The screenshot shows the Jira Software dashboard. At the top, there is a navigation bar with icons for Software, Operations, HR, All Teams, Marketing, Design, and Sales. Below this, a large banner reads 'Where your teams and AI come together'. Under the banner, there is a 'Work email' field with the placeholder 'you@company.com' and a 'Sign up' button. Below the sign up button, there are links for 'Or continue with' Google and Microsoft. At the bottom, there are logos for Domino's, Square, ebay, and ci. On the right side, there is a project board for 'The Next Big Thing' with a list of tasks and their status (TO DO, IN PROGRESS, DONE). A hand-drawn arrow points from the 'IN PROGRESS' section to the 'DONE' section.

Complete the account creation process by following the instructions displayed on the screen.

The screenshot shows the Jira 'Create a site' dialog box. At the top, it says 'Create a site' with a sun icon. Below that, it explains: 'Sites are the shared space where people organize teams, work, and projects.' The 'Your site' section has a text input field containing 'subhjenamvlu' and a dropdown menu showing '.atlassian.net' with a green checkmark. A note below states: 'This site name is just a suggestion. Feel free to change to something your team will recognize.' At the bottom is a blue 'Continue' button.

Create a site

Sites are the shared space where people organize teams, work, and projects.

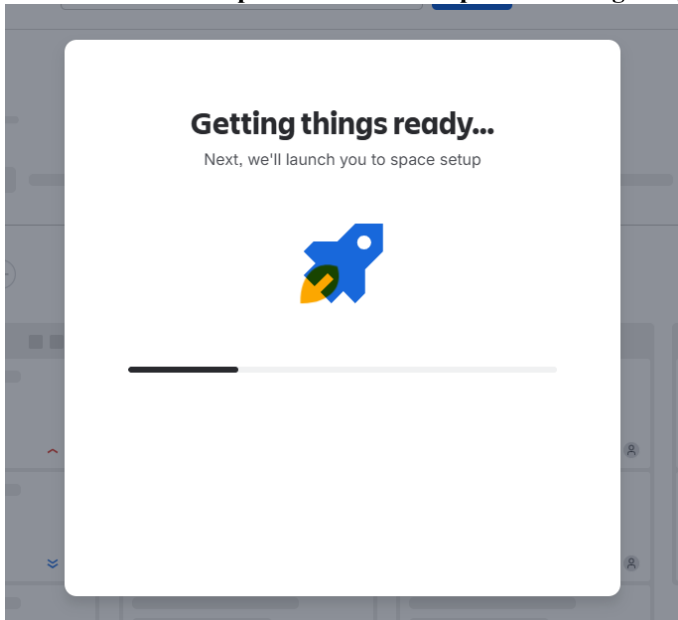

Your site

subhjenamvlu .atlassian.net ✓

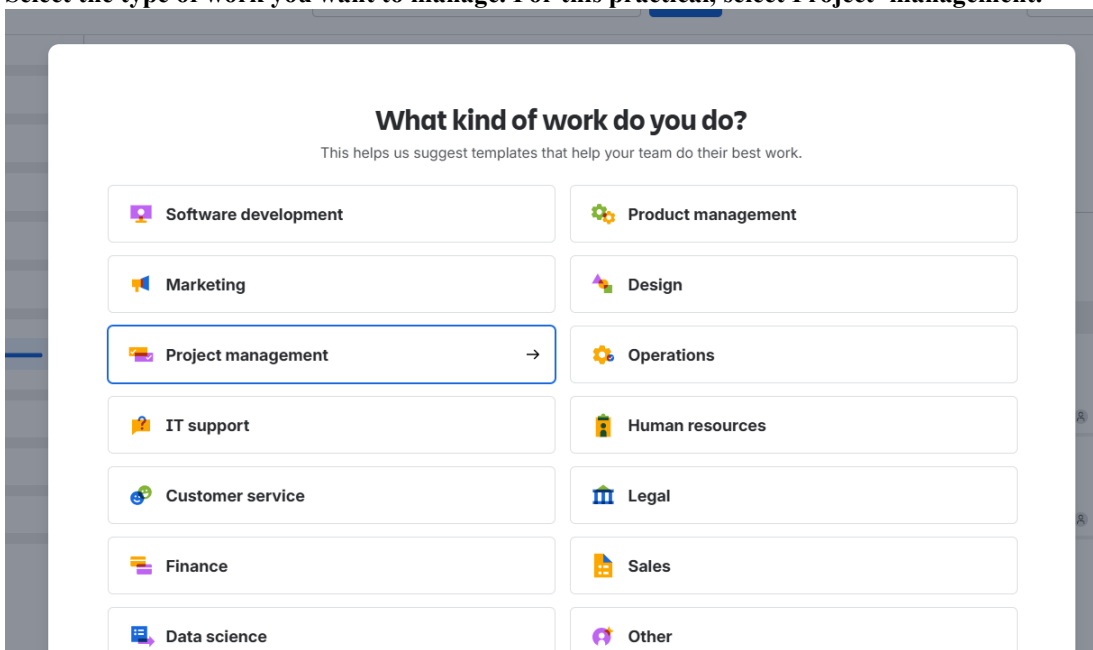

This site name is just a suggestion. Feel free to change to something your team will recognize.

Continue

Wait for Jira to complete the initial setup. The Getting things ready screen will appear.

Select the type of work you want to manage. For this practical, select Project management.

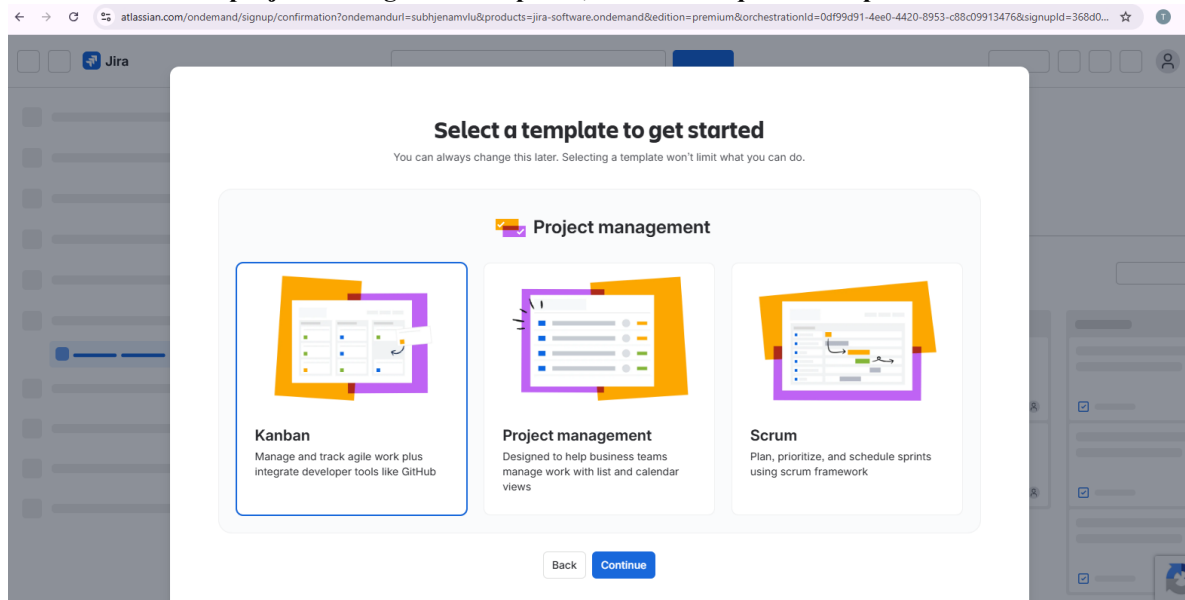

The screenshot shows the 'What kind of work do you do?' screen. It has a title 'What kind of work do you do?' and a subtitle 'This helps us suggest templates that help your team do their best work.' Below are two columns of buttons, each with an icon and a label. The 'Project management' button in the first column is highlighted with a blue border and a right-pointing arrow.

What kind of work do you do?

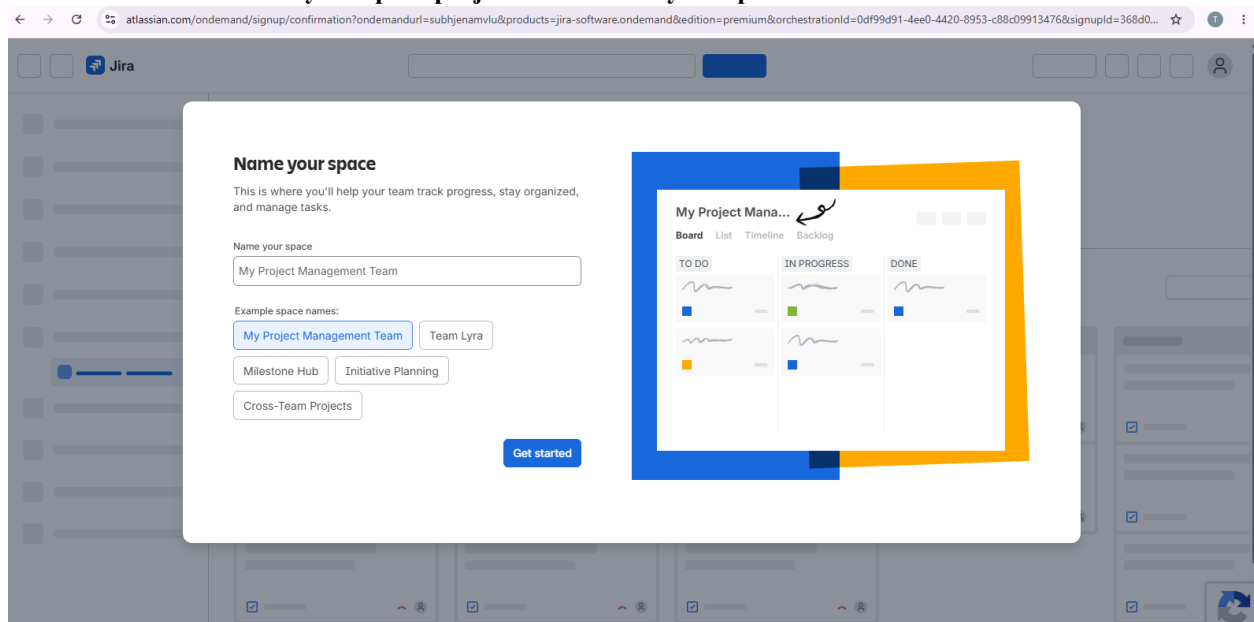

This helps us suggest templates that help your team do their best work.

Software development	Product management
Marketing	Design
Project management →	Operations
IT support	Human resources
Customer service	Legal
Finance	Sales
Data science	Other

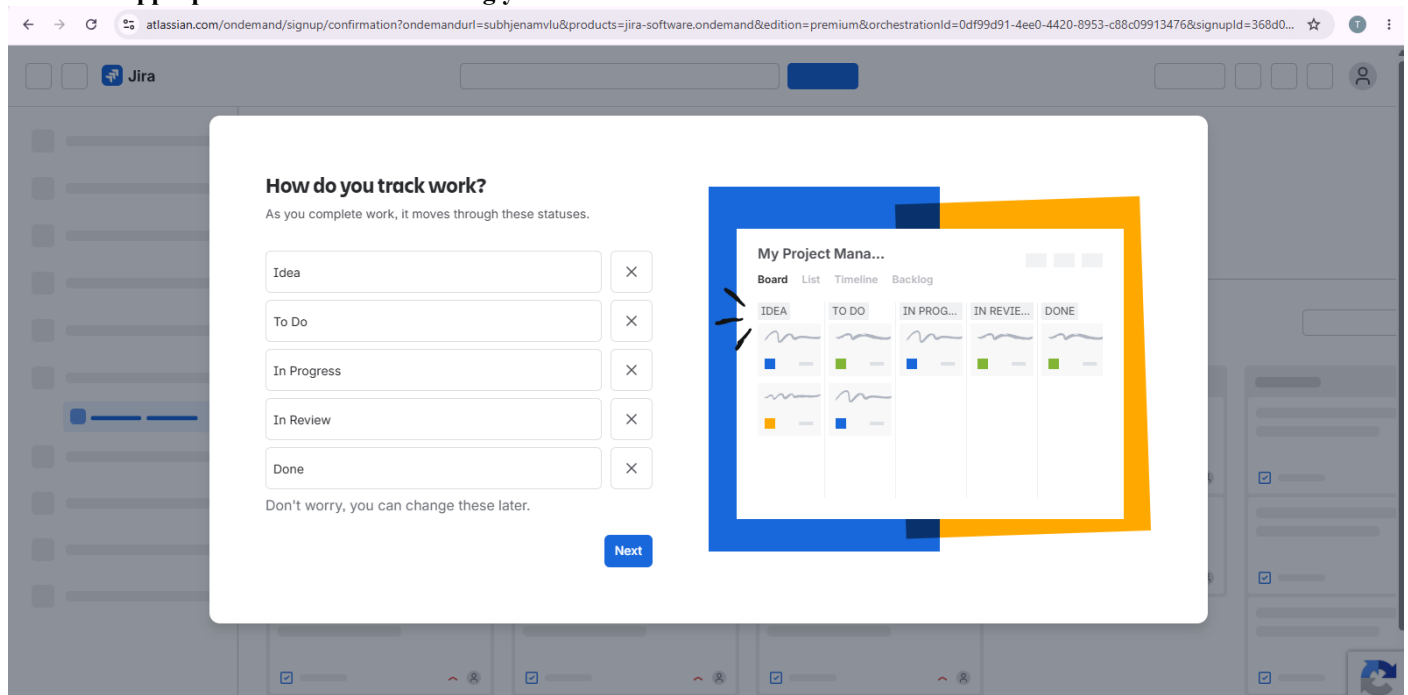

From the available project-management templates, select the required template that is Kanban and click Next.

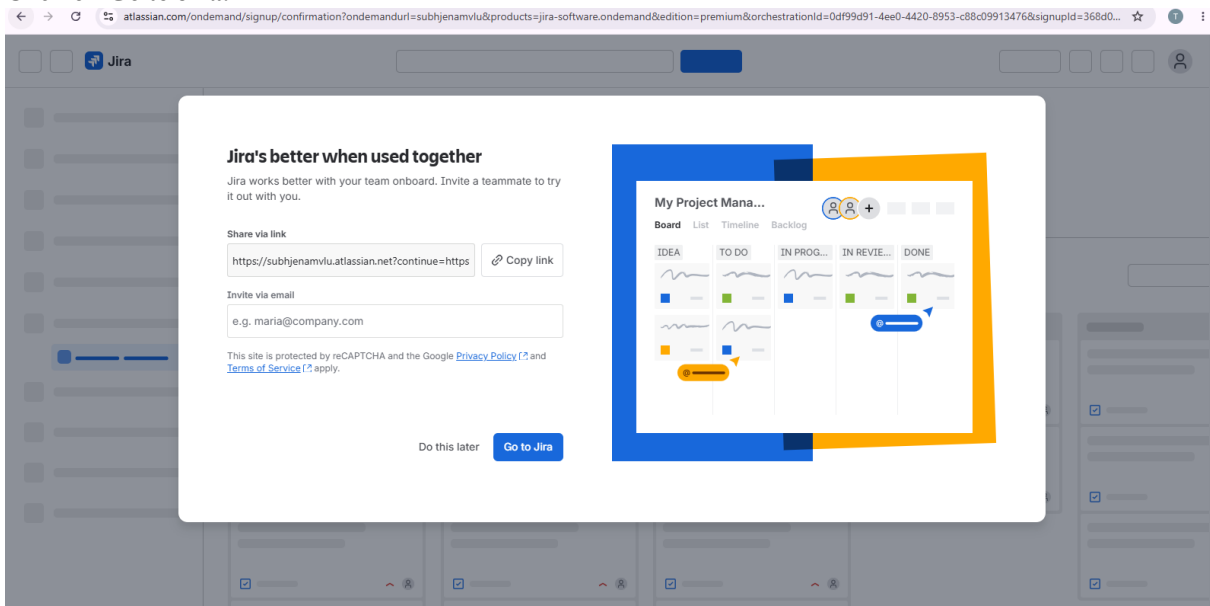

Enter a suitable name for your space/project in the Name your space field.

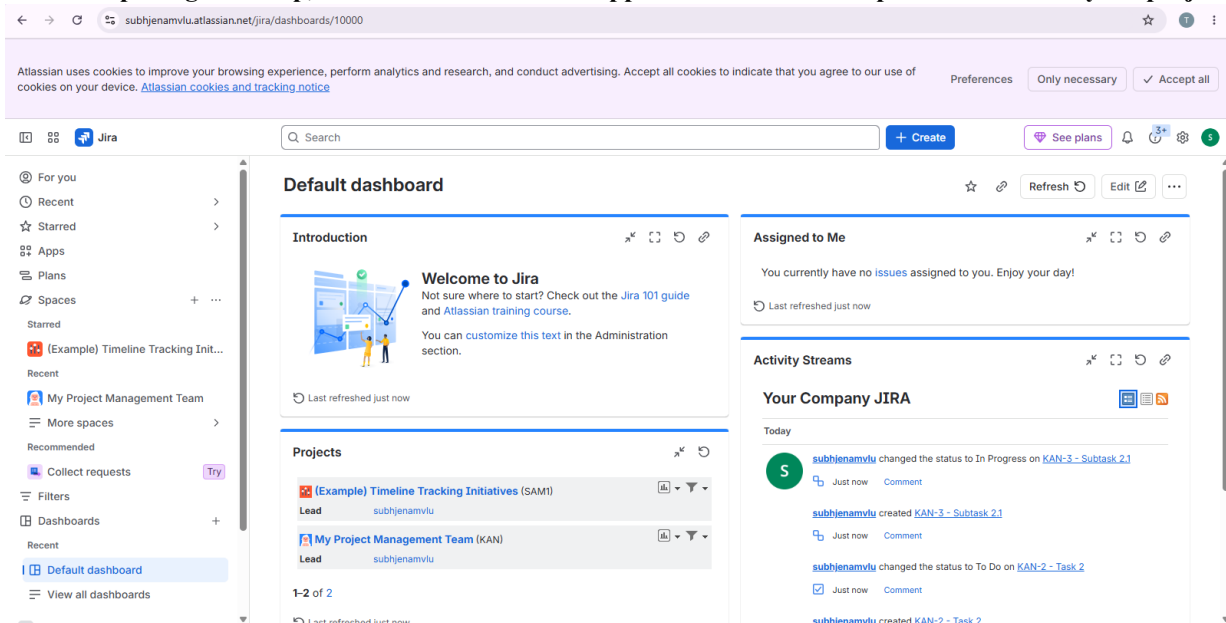

Select the appropriate method for tracking your work and click Next.

After this select the type of work – click next.
Click on Go to Jira.

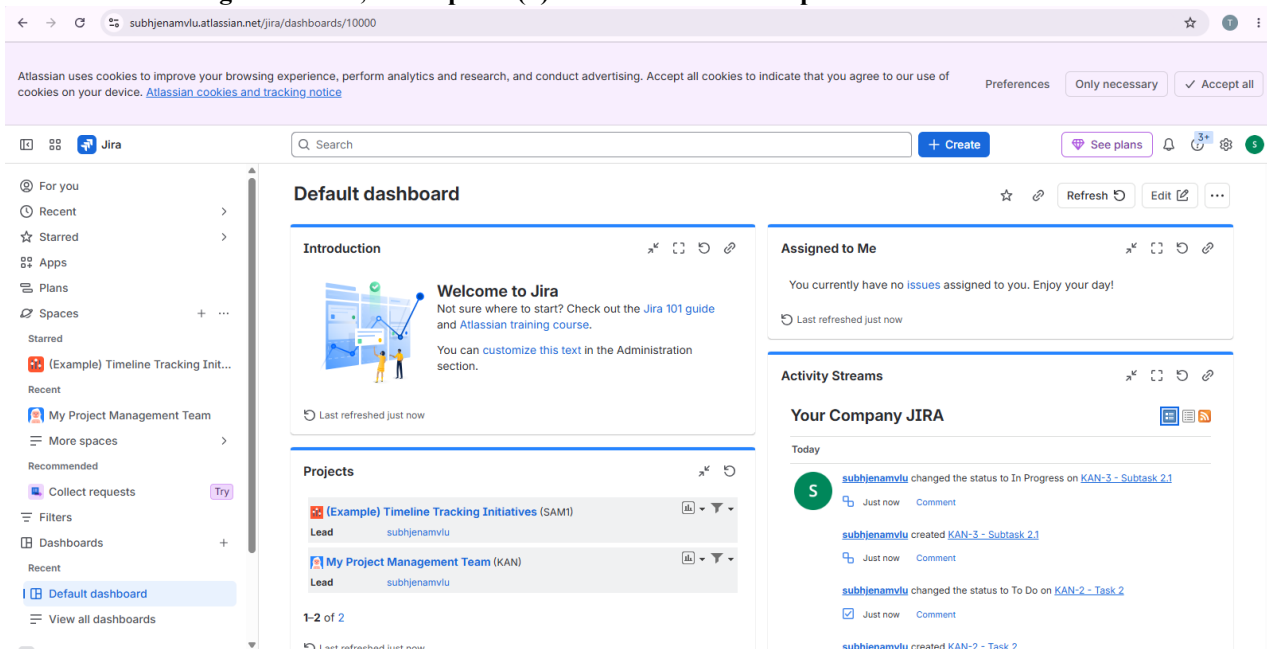

After completing the setup, the Jira Dashboard will appear. The dashboard provides access to your projects and work.

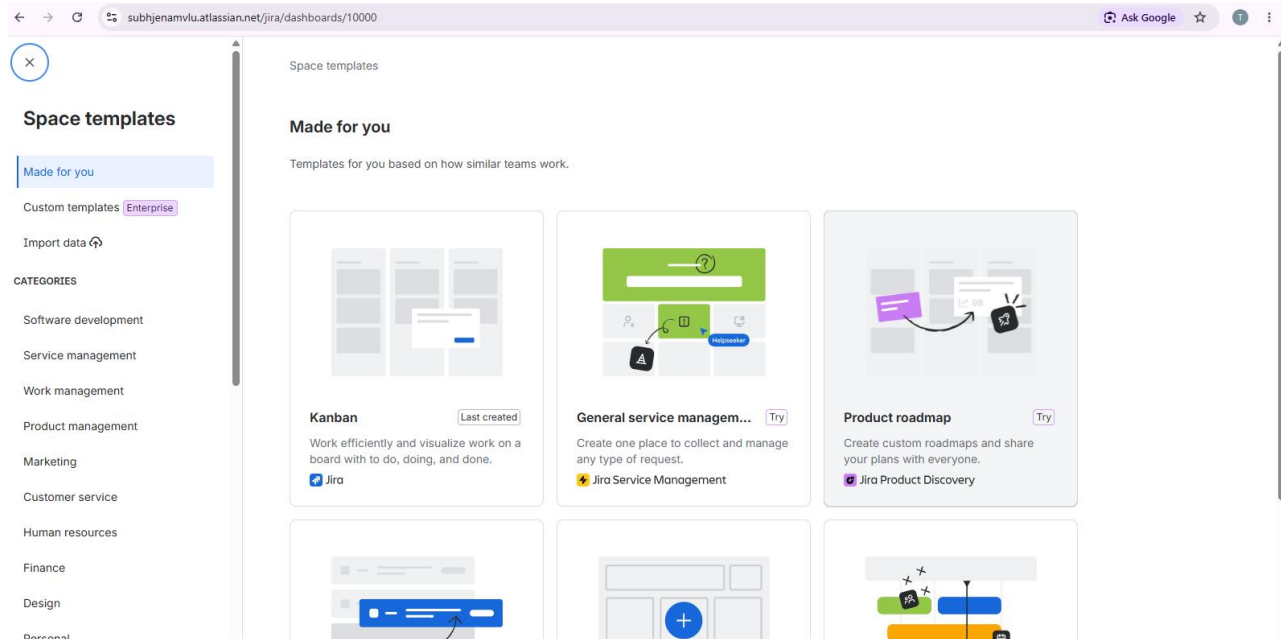

B. Create a Company-managed Scrum/Kanban Project.

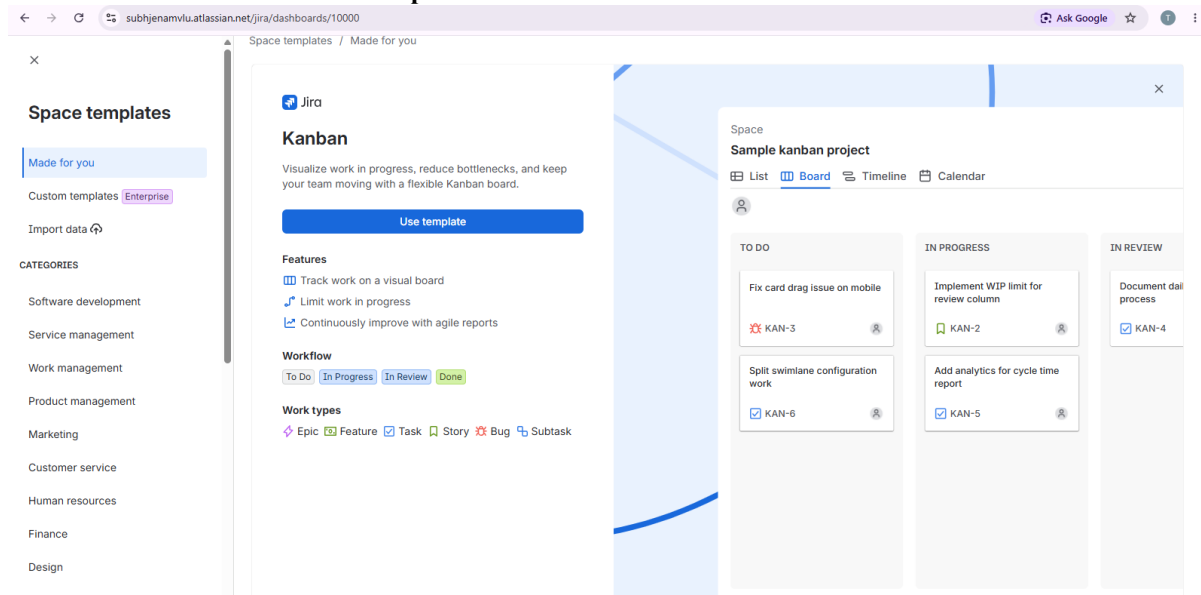

From the Jira navigation menu, click Spaces (+) to create or access a space.

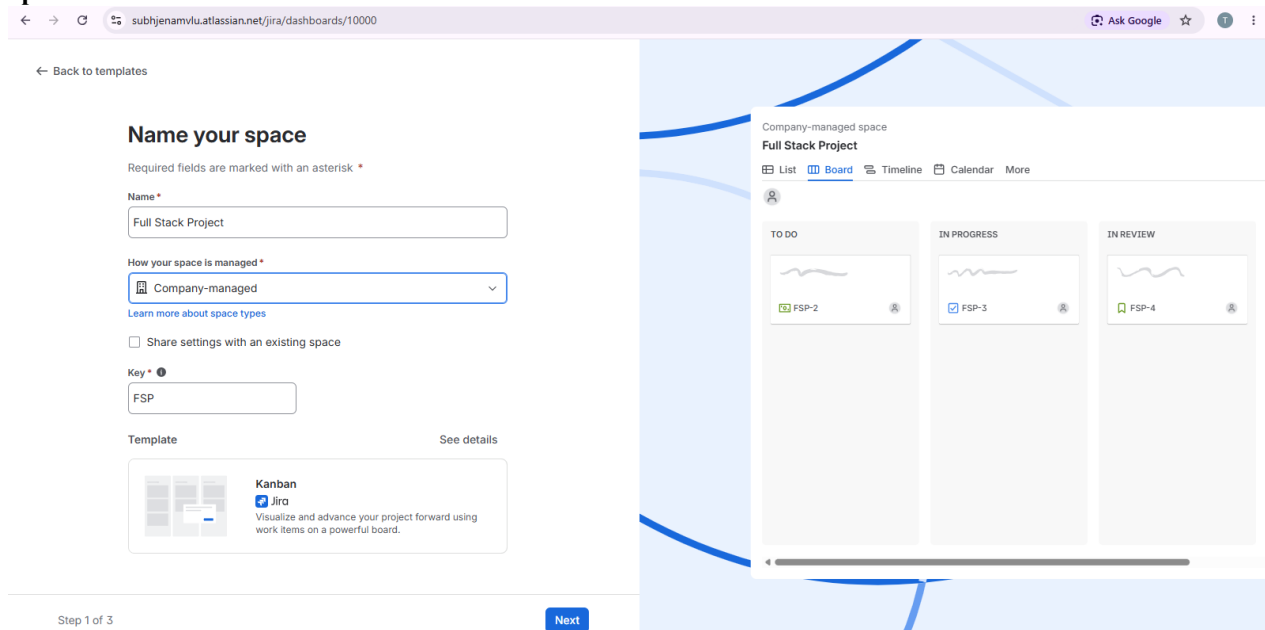

Select the Kanban template to create a Kanban-based project.

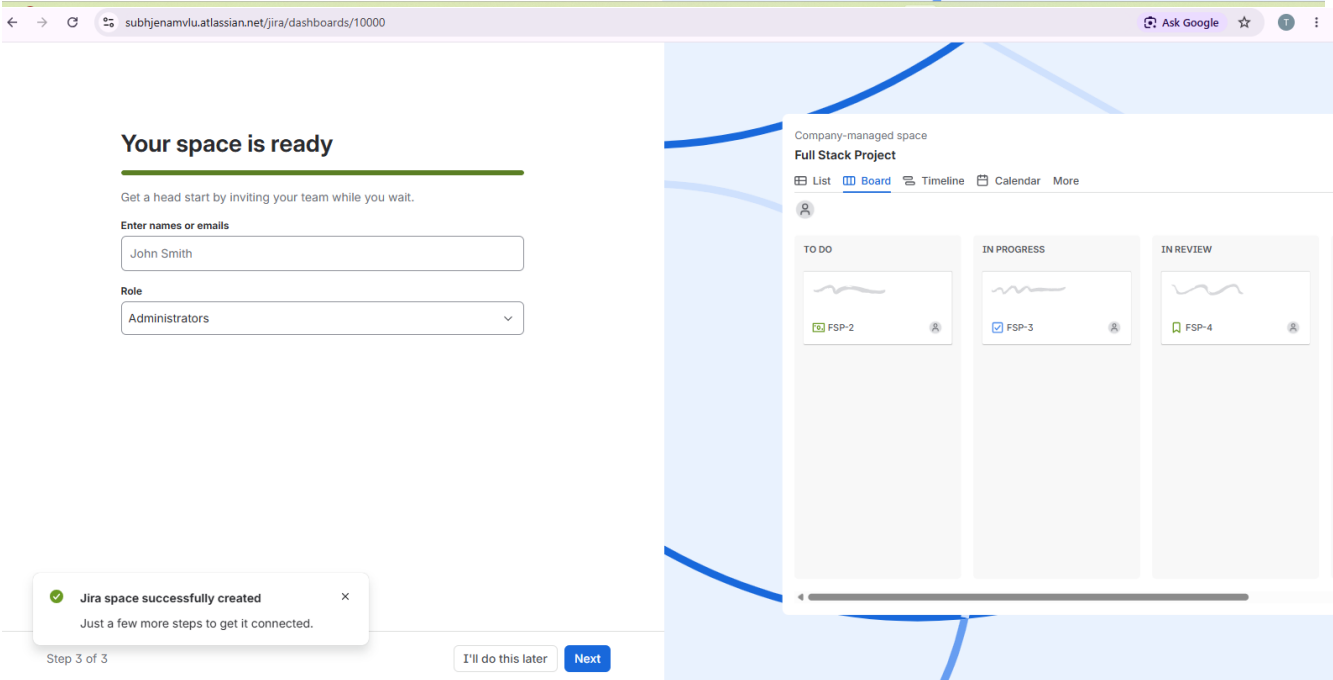

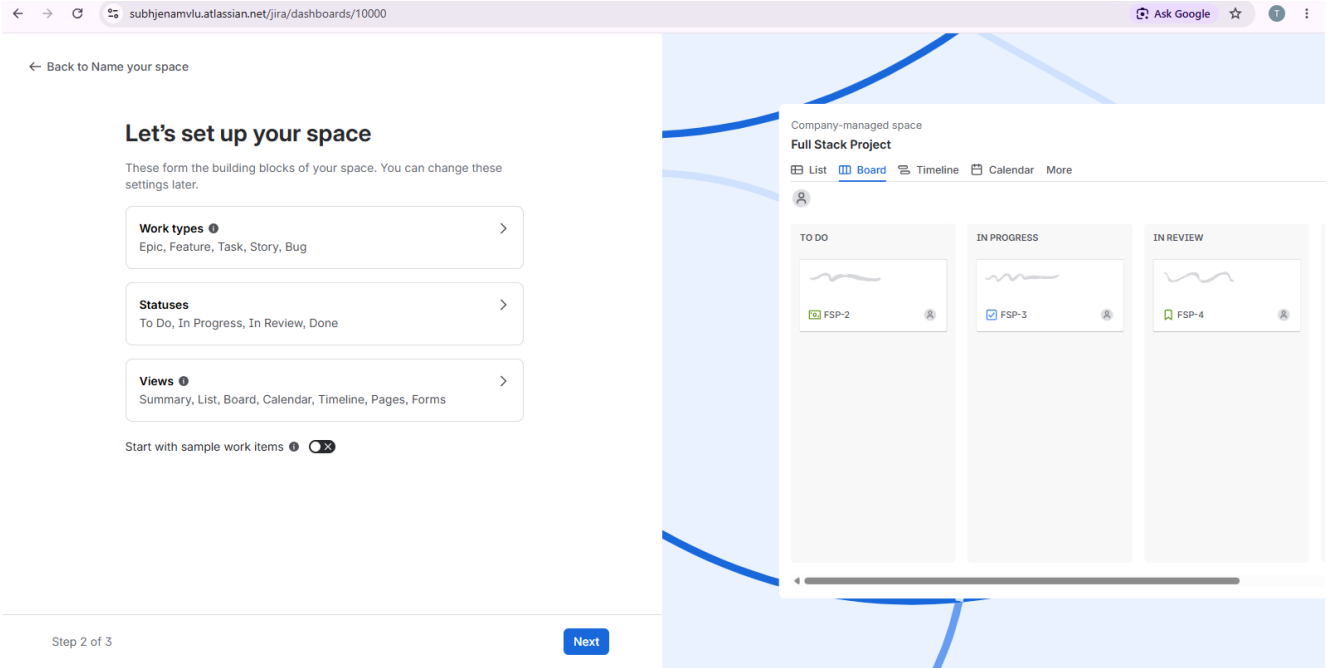

Select Kanban and click on use template

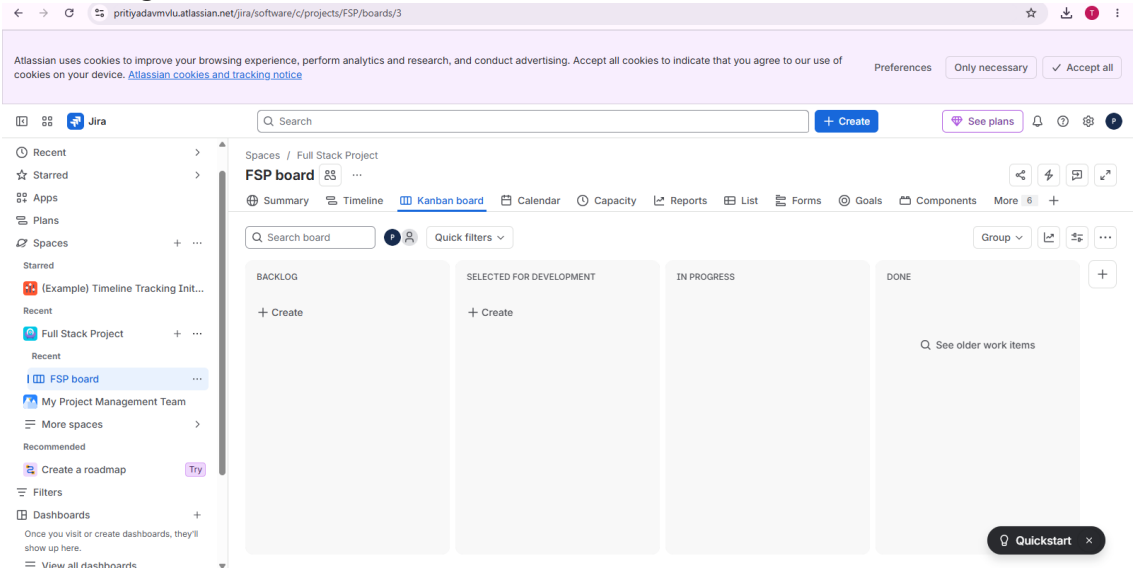

Enter the required Space Name and provide the necessary details such as, select Company-managed in space managed option and then click next

Enter the email addresses of the team members you want to add to the space.If you do not want to add members at this stage, select I'll do this later.

After completing the setup, the Kanban Board will appear. The board can be used to create and track tasks through different stages.

C. Configure project details.

Open the created Jira space/project from the navigation menu.
